Southeast Milk Prices, 2000–2026

Federal Milk Marketing Orders 5 (Appalachian), 6 (Florida) and 7 (Southeast) · Updated November 1, 2026

Uniform (blend) price, $/cwt at 3.5% butterfat

	2000	2002 (low)	2022 (high)	2025	2026 Jan–Sep	Change 2000–25
Order 5 Appalachian	$13.95	$13.25	$26.39	$22.18	$22.59	+$8.23 (+59%)
Order 6 Florida	$15.22	$14.63	$28.36	$23.65	$23.76	+$8.43 (+55%)
Order 7 Southeast	$13.59	$13.05	$26.90	$22.61	$22.89	+$9.02 (+66%)
All federal orders	$12.11	$11.91	$23.68	$19.11	$18.40	+$7.00 (+58%)

Key findings

• Southeast uniform prices are up 55–66% since 2000, but the path is volatile: sharp drops in 2002, 2006, 2009 and 2015–16, and peaks in 2014 and 2022. All three orders hit their record annual average in 2022.

• Order 7 consistently pays $0.90–$3.50/cwt more than the national blend because 64–75% of its milk goes to fluid products (Class I), versus about 27% across all federal orders.

• Florida (Order 6) is the highest-priced order every year, with Class I utilization in the 80s.

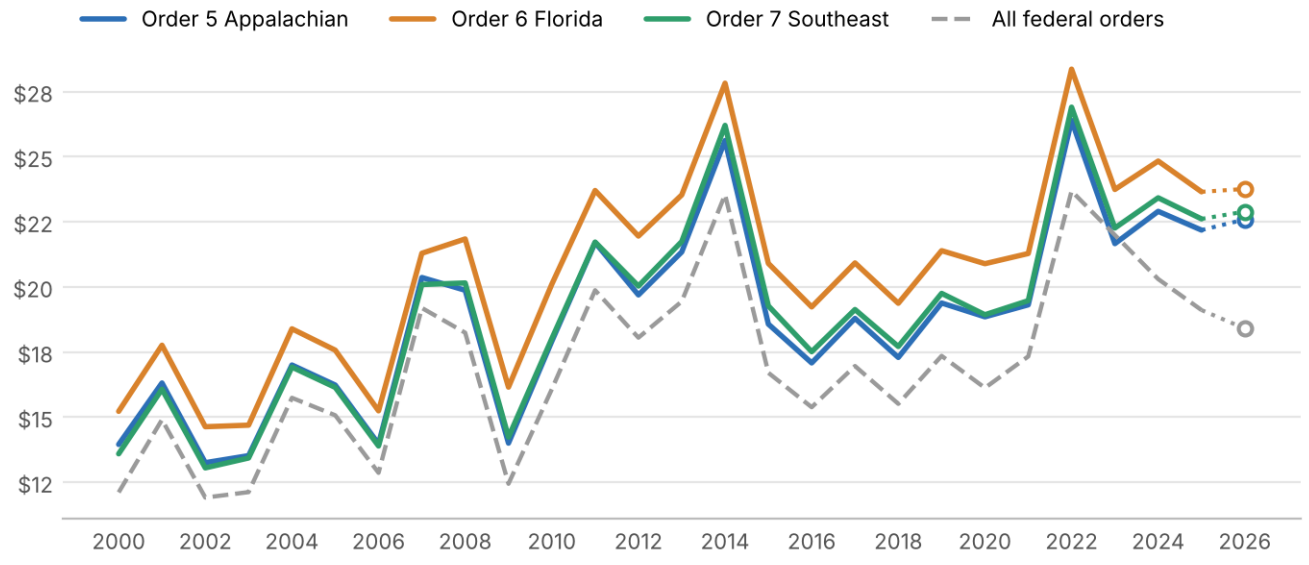

• 2026 is essentially level with 2025. Against the same January–September period of 2025, the uniform price is up $0.08 for Order 5 ($22.59 vs $22.51), down $0.29 for Florida ($23.76 vs $24.05) and down $0.07 for Order 7 ($22.89 vs $22.96). June was the 2026 high (Order 7 at $26.48); prices fell each month after, to $21.96 for Order 7 in September.

• Prices turn back up in November: the advance Class I price is $26.07 for Order 7, $27.07 for Florida and $25.87 for Order 5, up $3.23 from September's Class I, driven by a jump in the Class IV skim factor (nonfat dry milk).

• Policy note: USDA's Dairy Forward Pricing Program authority expired September 30, 2026. New forward contracts made on or after October 1, 2026 are no longer exempt from Federal order minimum prices; earlier contracts are unaffected (Market Administrator notice, October 2, 2026).

Uniform (blend) price by year

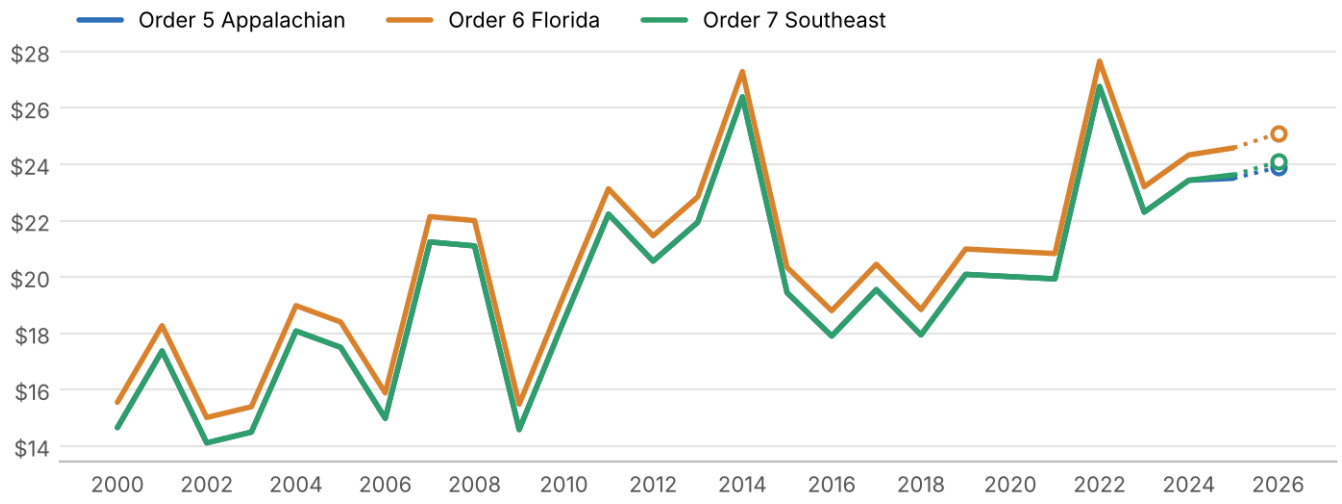

Annual weighted average, $/cwt, base zone. 2026 (open circle) is the Market Administrator's January–September average.

Source: USDA AMS Federal Milk Order Statistics annual summaries (fmmacentral.com); Market Administrators, Louisville KY & Atlanta GA.

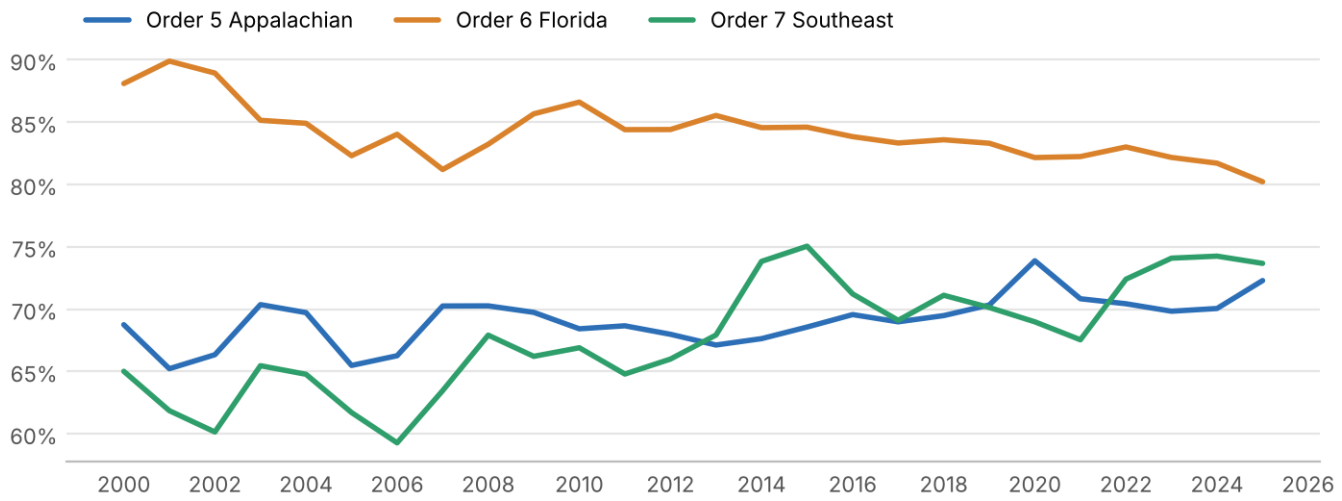

Class I price by year

Annual simple average, $/cwt, base zone. Orders 5 and 7 share a base Class I price in most years; Florida carries a higher differential.

Class I utilization

Share of pooled milk used for fluid products. Higher utilization pulls the blend price toward the Class I price.

Annual data, 2000–2026

$/cwt at 3.5% butterfat, base zone. Util. = Class I utilization. 2026 is the January–September average as reported by the Market Administrator (a simple monthly average); full years are volume-weighted (Class I is a simple average). The 2023 all-orders figure was not in that year's summary.

Year	FO5 uniform	FO5 Class I	FO5 util.	FO6 uniform	FO6 Class I	FO6 util.	FO7 uniform	FO7 Class I	FO7 util.	All orders uniform

* January–September 2026, simple monthly average, as reported in the Market Administrator's October 2026 newsletter.

Latest month: September 2026

From the Market Administrators' Announcement of Class Prices (released September 30, 2026) and the October 2026 newsletter. $/cwt at 3.5% butterfat, base zone.

	Order 5 Appalachian	Order 6 Florida	Order 7 Southeast
Base zone	Mecklenburg Co., NC	Hillsborough Co., FL	Fulton Co., GA
Class I differential	$5.60	$6.80	$5.80
Class I price	$22.64	$23.84	$22.84
Class II price	$17.60	$17.60	$17.60
Class III price	$16.04	$16.04	$16.04
Class IV price	$18.94	$18.94	$18.94
Uniform (blend) price	**$21.64**	**$22.68**	**$21.96**
Class I utilization	76.7%	82.9%	78.8%
Producers pooled	866	55	518
Milk pooled (million lb)	403.6	195.1	291.7

Class II–IV prices are set nationally and are the same in every order; the orders differ through the Class I differential and how much milk goes to Class I. September Class I was $1.72 below August in all three orders.

Next: November 2026 advance prices

Announced October 21, 2026. $/cwt at 3.5% butterfat, base zone. Order 5 is calculated with the same formula and factors, which reproduce the published Order 6 and 7 prices exactly.

	Order 5 Appalachian	Order 6 Florida	Order 7 Southeast
Class I price, November	**$25.87***	**$27.07**	**$26.07**
Class I price, September	$22.64	$23.84	$22.84
Change	+$3.23	+$3.23	+$3.23
Class II skim price, November	$16.73	$16.73	$16.73

* Calculated, not taken from the Order 5 announcement. The Class IV skim factor ($16.03) set the November price, well above Class III ($10.38). The Class I ESL adjustment for November is -$1.80. October class prices are due November 4 and December advance prices November 18, 2026.

Tennessee Class I prices, September 2026

Base-zone Class I price plus the location adjustment for that city. Adjustments in effect since June 1, 2025.

City	Order	Location adj.	Class I price
Athens	5	-$0.40	$22.24
Powell (Knoxville)	5	-$0.70	$21.94
Nashville	7	-$1.20	$21.64
Murfreesboro	7	-$1.20	$21.64
Memphis	7	-$1.20	$21.64

Nashville, Murfreesboro and Memphis each moved from -$0.90 to -$1.20 when the June 2025 amendments took effect.
